

STRENGTH IN FEATURES

At Schlage, we know security. After all, we've been innovating locks for more than 90 years. Now, with the **Touchscreen Deadbolt**, we've created a door lock that combines all of our best security features into one lock—redefining what it means to be secure. And with our innovative touchscreen feature, you have the convenience of going keyless and no longer having keys to lose, hide, carry or forget. The fingerprint-resistant touchscreen ensures numbers won't be detectable to intruders after repeated use—safeguarding your home even more.

Introducing Schlage's Touchscreen Deadbolt.

We are committed to using environmentally conscious print practices.

WE PUT MORE IN. TO KEEP MORE OUT.

SECURITY YOU CAN TRUST

THE DEADBOLT

This deadbolt was specifically engineered to provide security you can rely on to safeguard your home.

- **ANSI Grade 1** delivers highest level of durability and security for residential door locks, as certified by BHMA.
- **Durable resistive Touchscreen** ensures wear pattern remains undetectable.
- **Visual screen indicators** alert you when access is granted or denied and when batteries are getting low.
- **Motorized tapered bolt** automatically locks and unlocks when code is entered.
- **Warning beep** alerts you when the deadbolt is not fully extended into the door jamb.
- **Anti-pick shield** protects against lock tampering.
- **Auto-lock feature** automatically relocks door anytime it's left unlocked.
- **Slim exterior** prevents interference with storm doors or other door preps.

SECURITY YOU HEAR INSTANTLY

BUILT-IN ALARM TECHNOLOGY

Locks equipped with Built-in Alarm Technology are engineered to sense the slightest vibrations or movement of the door and immediately alert homeowners with an audible alarm. Alarm functionality is easily customized to fit your security needs:

- **Activity Alert:** Monitor when someone goes in or out. Two short beeps sound every time the door opens and closes.
- **Tamper Alert:** Know when the door knob/lever is being disturbed. Short, rapid beeps act as a deterrent against tampering.
- **Forced Entry Alert:** Hear instant notification when significant force pushes against the door. Loud, shrill siren sounds at first impact.

SECURITY YOU CAN RUN FROM WHEREVER

NEXIA™ HOME INTELLIGENCE

The **Touchscreen Deadbolt** is also enabled to work with Nexia™ Home Intelligence,* a home automation system that allows you to:

- Lock or unlock the deadbolt remotely
- Program user codes and alarm modes from any Internet-enabled device
- Receive text alerts when an alarm triggers or specific lock codes are entered
- Schedule lock codes to be active only on certain days at specific times

Nexia™ Home Intelligence also has the ability to control thermostats, lights, cameras and more—from wherever you and the Internet happen to be.

For more information, visit nexiahome.com

*You must purchase the Nexia Bridge and set up an account to enable Nexia™ Home Intelligence.
